

NEXORA DIGITAL SOLUTIONS

Assignment 002 – Responsive Business Website Development Project Plan

1. Website Description

A modern, responsive corporate website for Nexora Digital Solutions, a fictional Kenyan technology company. The website will introduce the company, present its ICT services, showcase sample projects and provide a way for potential clients to contact the company.

2. Target Audience

- Small and medium-sized businesses
- Startups
- Organizations seeking ICT solutions
- Individuals seeking technology services

3. Main Purpose

To establish an online presence for Nexora Digital Solutions and provide visitors with clear information about the company, its services, projects and contact options.

4. Required Pages

Page	Purpose
Home	Introduction, hero section, services preview, call-to-action and company highlights.
About Us	Company overview, mission, vision, values and why clients should choose the company.
Services	Detailed presentation of the company's ICT services.
Portfolio / Projects	Sample completed projects presented using cards or a grid.
Contact	Contact information and a functional frontend contact form.
